Make a Christmas stocking for your pet

What you'll need:

- Colourful card (two A4 sheets)
- A hole punch
- Scissors
- Some ribbon
- Coloured pens, crayons or pencils
- Fun sparkly bits like stars or glitter if you'd like to stick these to your stocking too!

How to make your Christmas stocking

- Draw your stocking shape on the two pieces of card. You can cut out and trace around the template on this page if you like, or draw your own!

- Punch holes around the edges of both stocking shapes.

- Thread the ribbon through the holes, weaving in and out, and tie at the top. Now you have a stocking ready to decorate!

- Draw some Christmas pictures on your stocking, or pictures of the pet it's for. Don't forget to write their name at the top!

- Decorate your stocking further with glitter if you want.

- Your stocking is complete! Now just fill it with some tasty treats and maybe some toys for your pet, and hang it up, ready for Christmas.
